THE ABBIT RABBIT HAS THE IVY LEAGUE HABIT

IN LOVING MEMORY

OF

PRILLY POTTER

DEDICATION

With pride and affection the senior class dedicates this book to Miss Kate Friskin, who has managed so long and so well to do things with our voices that Mother Nature never thought of.

Mrs. Alexander Crane, our beloved principal, who makes us buckle down and work.

CLASS SONG

Abbot, to you we're raising
Our songs ever praising,
As onward we're marching without fears.
With your standards high o'er us,
Your bright torch before us,
Its flame will guide us through the years.
Achievements the blue has earned
Will last through the time to come.
The friendships of '58
Shine in their gold as one.
Now we pledge unto you
Our loyalty true,
Oh Abbot, we'll hold to your ideals.

THE BEST-KNOWN NAME IN GLASS . . . MEANS MORE THAN GLASS

Glass manufacturing was the New World's first industry. It started in Jamestown in 1608, but so complicated are the problems of glass manufacture that it was nearly 300 years before the industry could claim real success.

In 1883 the Pittsburgh Plate Glass Company was organized. Sound financial policy and, equally important, a practical and much-needed distribution system made Pittsburgh the first commercially-successful plate glass producer in America.

Today, its Glass Division operates seven glass plants, three fabricating plants, and two specialty plants. A new plate glass plant is under construction and plans are being completed for a new window glass plant. Its Fiber Glass Division produces strand and superfine fiber. Its products include plate and window glass and a wide range of processed and fabricated flat and bent glass products.

But the name "Pittsburgh" has grown to mean more than glass. Pittsburgh paints and brushes rank among the best in their fields. The company also produces an outstanding line of Selectron plastics. Pittsburgh chemical research carried on through its wholly-owned subsidiary, Columbia-Southern Chemical Corporation, has developed many new products and manufacturing processes.

Yes, the best-known name in glass also means . . . Paints, Plastics, Brushes, Chemicals, and Fiber Glass.

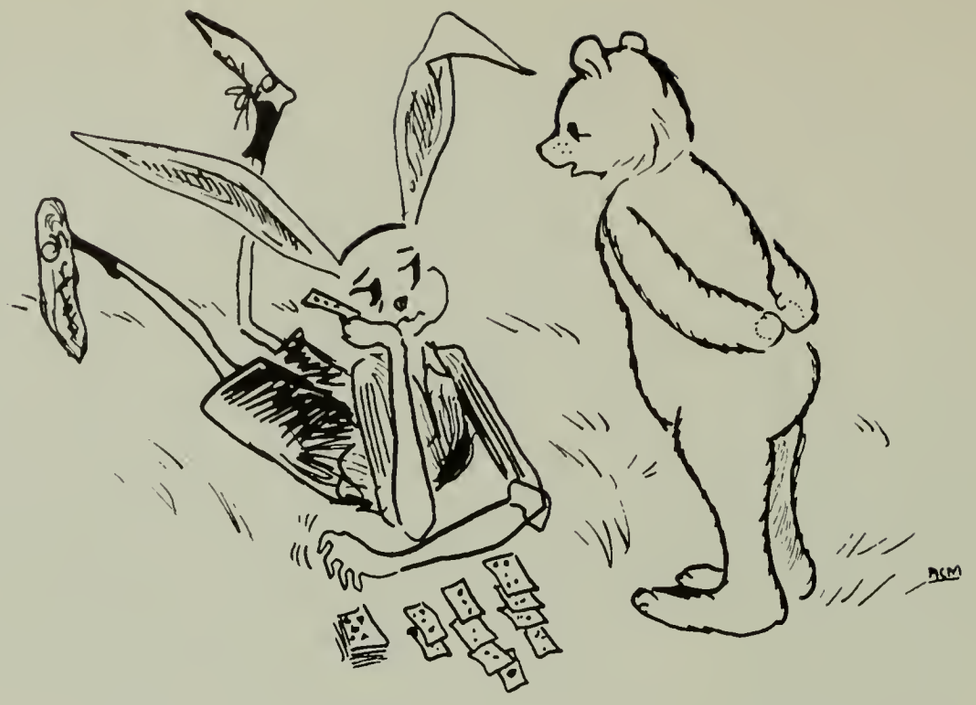
May Good Fortune Go

"Around the World"

with '58

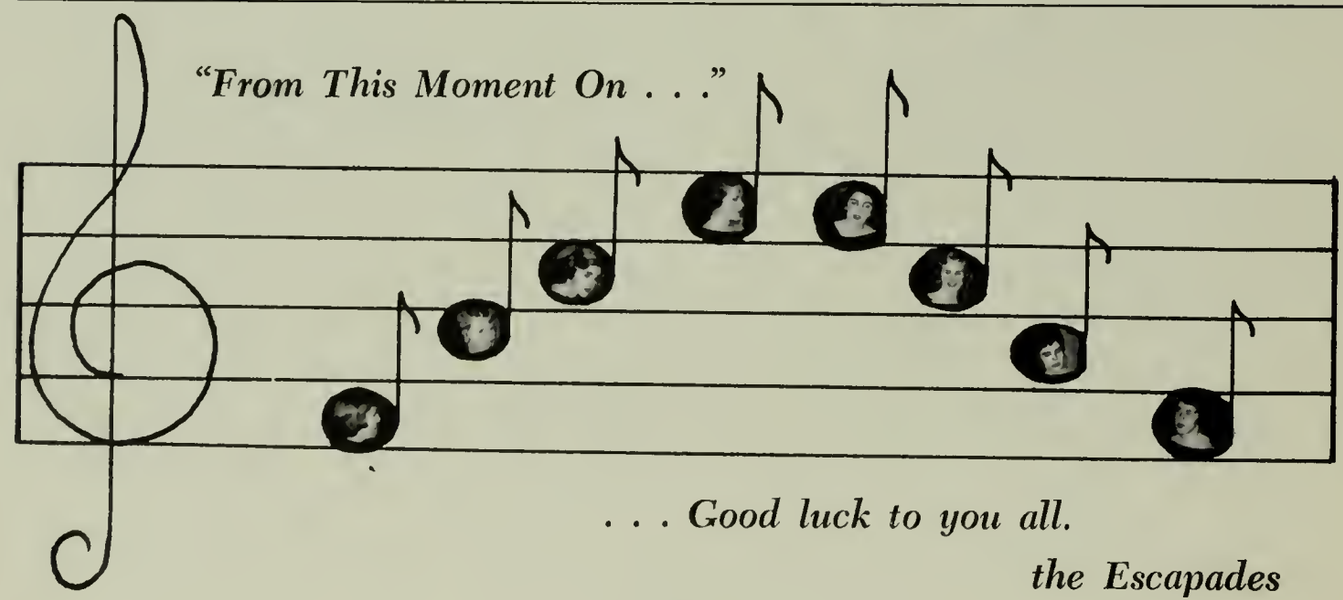
Happiness and Success lie within each one of us. The task is not to discover them, but to uncover them.

Pooh says: ...



" We can't all, and some of us DON'T. "

The Outer World must think it's funny
For me to graduate ... a bunny.
But the laughs on them,
I shall relate -
I'm the only male in '58!



"From This Moment On . . ."

. . . Good luck to you all.
